

ZARA KHANNA

MANIFESTO FOR THE FASHION AND DESIGN COUNCIL PRESIDENT ROLE

FASHION DESIGN BA HONS YEAR 1

- Hello there everyone, my name is Zara Khanna and I'm from New Delhi, a city in India. I am currently in my first year, studying Fashion Design BA at our esteemed Regents University London! My country's heritage and culture is a large part of who I am and reflects on my work enormously! I would love to not only share my part of the world with each and every one of you but also inherit a part of yours! The values and teachings I have learnt at home are the ones I bring to the workstation and it is the only thing that helps me keep the calm and composure that one needs, to be able to help guide a brilliant group of people from all around the world to shine best as themselves while learning from everyone's around them and to come together as a whole!
- My leadership skills would ensure me to be the perfect fit for this position as being the binding source to a large group of people has always been my forte! At school in New Delhi I was elected as the president of Interact Club, wherein many events for the underprivileged like a sports day for children from NGOs, social gatherings like blood donation camps and dental cleaning check ups were conducted by myself and my teammates who made a huge contribution in helping me become the leader I always knew I was capable of being! I have also imbibed many qualities from all experiences I've had with working and interning for/with large Indian brands like Gauri and Nainika. I would make it my main aim for all around me to benefit from the knowledge I've sought and skills I've learned during this while!
- A person you can depend on, a person that will voice your concerns and represent each and everyone of you, a person that will put in 110% is the type of person you need in serving as your fashion and design council president and I remain committed to be that person for you! I would work towards

creating a more interactive environment where we all come together as a group to voice our problems to only find solutions and have workshops within us students to create a change in our section! Each and every one of our ideas will be voiced and come to life! I will also make sure to have a contribution box at the entrance of the class where anyone can put in their tips for any issue that they are facing or an idea! This box would be checked once a week and I promise to bring every idea into action and find a solution for every problem we may face within our due course here!

THANK YOU ALL SO MUCH ! I HOPE TO MAKE A CHANGE FOR YOU ALL VERY SOON!
